

SLED HEAD HEAVEN

RIDE YELLOWSTONE COUNTRY

ULTIMATE POWDER & OPEN TERRAIN

Ride the newest sleds:

2017 — Arctic Cat M8000 SnoPro

2017 — Ski-Doo Summit X 850 E-TEC

West Yellowstone, Montana

SeeYellowstone.com

BRING YOUR PASSION FOR THE STEEP AND DEEP

TEST YOUR SKILLS

Our performance mountain snowmobiles have longer tracks, deeper lugs and more CC's. Ride the Upper Tepee Basin, Lion's Head or Centennial Mountain Range** and while on these backcountry adventures, you will glide through deep powder and breathtaking terrain.

EXPERIENCED OR NEW TO BOONDOCKING

We have a sled for you. If you're new to mountain riding, try a Ski-Doo MXZ Sport. Want more power? Upgrade to one of our large selection of late model powder or mountain sleds from Arctic Cat, Polaris and Ski-Doo. Ask for details.

GUIDED RIDES

Join a group (maximum of 10 people), put away your map, and let a local guide fill your day with fun, thrills and scenery. We also have daily guided trips to Two Top Mountain designed for riders of all abilities. Call for pricing and availability and don't forget your camera.

**Your safety is our number one priority, so all guests taking these tours will be required to take a short, on-site avalanche training course. Avalanche packs will be supplied at an additional cost.
